ASSISTANT COMMISSIONER FOR PATENTS
WASHINGTON, D.C. 20231

SIR:

In response to the Office Correspondence mailed January 28, 2002, Applicants
respectfully request reconsideration in view of the following:

REMARKS

Please delete the Sequence Listing, which was filed in error on December 14, 2001.

According to 37 CFR § 1.821, a Sequence Listing is only required when an
unbranched sequence of four or more amino acids or an unbranched sequence of ten or more
nucleotides is "specifically defined" in the application. There are no such sequences in the
present application. As such, submission of a Sequence Listing is believed to be
unnecessary. In the event the Office determines that a Sequence Listing is necessary,
Applicants request that the office contact the Applicants' undersigned representative by
telephone to avoid any further delay.
